Acutonics® elective

2017 Soundscapes Intensive & Certification

"We Return to Questa"; all 5 modules

Facial Soundscapes: Harmonic Renewal is a gentle, powerful, non-invasive vibrational protocol utilizing Acutonics® tuning forks for both face & body. Using the 5 Elements of Oriental medicine, treatments are customized for each person's constitutional archetype.

Facial Soundscapes: Harmonic Renewal

Materials to be covered include an in-depth journey into the healing aspects of sound, overview of the Earth, Moon and Sun forks, their mythic and archetypal attributes, and how they relate to the face/body, an Eight Extraordinary meridian meditation (for right brain consumption only!), specific 5 Element sound points, and a basic Soundscapes treatment targeting specific facial syndromes such as jowls, turkey wattles, puffy eyes, etc. Students will be introduced to the Five Element landscape of the face, and an entire topical herbal protocol.

Planetary Soundscapes: The Cosmic Countenance

This class expands upon the concepts introduced in the first module, with an emphasis on applications of Acutonics® planetary forks and interplanetary intervals in the context of a constitutional facial treatment protocol. Materials include 8 planets - Mercury, Mars, Venus, Jupiter, Saturn, Uranus, Neptune and Pluto, how they relate to the face, the art of planetary intervals, astrology and physiognomy, planetary facial syndromes, and their cause and treatment.

The Transcendent Face

In this planetary *piece de resistance*, we will add the archetypes of Chiron, Nibiru, Sedna, the 4 asteroids and the high frequency planets into our vibrational facial palette. These new resonances will be incorporated into a full constitutional treatment protocol along with the Earth, Moon, Sun and other planetary tuning forks.

*Information about individual modules may be found at www.chiakra.com/ss_training.htm.

Please note: a \$30 non-refundable materials fee will be added to the tuition cost for herbal products, creation/maintenance of a Referrals web listing, & certificates of completion.

Shifting your Intergenerational Patterns: GeneAstrology™ & Vibrational Medicine

We all carry within us inherited "blueprints" which are passed down from generation to generation. These genetic codes trigger cellular memory and map out not only our physical attributes, but also our thoughts, feelings, ideas, prejudices, talents, etc. These memories are largely unconscious, and in most people, they remain a part of the legacy of the family line, in the form of addictions, illnesses, health issues, and tendencies to recapitulate certain catastrophic events. Even the nature and timing of death can be programmed in this way, occurring at the same time and under the same circumstances as that of one of our ancestors.

Awareness: Unearthing the Family Myth with GeneAstrology™

Michelangelo, with his expertise in medical astrology, will provide you with an in-depth analysis and synthesis of the natal charts of your immediate family members -- siblings, parents, grandparents, etc. -- and a summary of salient chart dynamics that point to the recurrence of particular astrological signatures, revealing the mystery of the individual family "myth" or "curse", and what the implications might then be for the family members in terms of psychospiritual imbalances, and their contribution to the manifestation of illness. Additionally, it may be possible to examine the astrological energies present at the time of certain catastrophic events, in order to ascertain what archetypal aspects of the family legacy may have been triggered by the specific planetary alignments.

Understanding: Interaction with Ancestral Patterns

Possessing this heightened awareness of the family's cosmic legacy, Mary Elizabeth Wakefield will take the lead in facilitating interactions with your ancestors in a variety of ways -- exercises, meditations and ritual and ceremony, which can serve to engender compassion for both ourselves our immediate family and our ancestors.

Change: Vibrational Healing Treatment Protocols, "Your Unique Sound Prescription"

Utilizing specific tuning fork combinations derived from the twin diagnostic approaches of Chinese medicine and GeneAstrology™, we will address your collective family profile. Other sound therapies will also be integrated into this level. These treatments can engage and trigger the cellular memory, serving as a catalyst for change.

Transformation: An Evolution in Consciousness

These treatment protocols address these long-standing "Genea-Astro-Logical" signatures. This will engage the cellular memory in a transformative way and facilitate the requisite evolution in consciousness, so that the cosmic coding relating to these influences may be deciphered and deactivated.

This work is both revelatory in every sense, and ground-breaking, and it possesses the capacity to move us beyond the comfortable snares of our unconscious motivations and behavior patterns, negative emotional states, and thoughts and actions that do not seem to be our own. Our intention in this course is to explore the freedom to birth our Authentic Selves; in becoming free in this manner, we can express our gratitude to our ancestors. This dynamic shift in consciousness will foster our capacity for individual, empowered choices, and permit us to embark upon our own unique destiny in this lifetime!
