Practitioner Referrals: International

Referral List of Practitioners (International)

updated 5/28/17

**Please be advised that our essential purpose in providing this referrals database (the maintenance of which is time-intensive, and continues to be free of charge) is so that potential clients may locate a practitioner in their area, and we may contact you regarding future seminars and other opportunities. If your listing is not current for a 6 month period, it will be deleted. *Note: key to practitioner certification level is located at the bottom of this page.*
